SUSTAINABLE RURAL PLANNING RESEARCH GROUP (SRPRG)

Background

The Sustainable Rural Planning Research Group (**SRPRG**) was formed in 1994 and members of the group cut across faculties in UTM, especially the Faculty of Built Environment and Faculty of Management and Human Resource Development. The activities of **SRPRG** focus on research, consultancy, publications and organising national and international conferences and seminars. Members of the group are also involved in providing advisory services to government and private organisations, such as the Institute for Rural Advancement (INFRA), Selangor State Government, and the Federal Department of Town and Country Planning.

Selected Research / Consultancy: Year 2000 - Present

- 1) Empowerment Approach in the Preparation of Rural Action Plan, Gerakan Desa Wawasan, 2001.
- 2) Model of Planning and Development of Traditional Villages in Semenanjung Malaysia, 2002
